

FOR INJURY MANAGEMENT

MANAGING ONSITE INJURY FAST AND EFFICIENTLY

CMxConnect connects your team directly with professional medical doctors through a secure, live video consultation, anytime, anywhere, as an on-demand injury management app.

Simple and easy to use, the innovative app translates to real-time professional medical assistance - at the fingertips of your team - in the moment they need it. It helps to eliminate any frustration from long wait times at either hospital or clinic, regardless of the injured employee's location.

Your team is your most important asset; your people and their productivity are critical to the success of your business. Or perhaps you work in an aged care or service setting where customer's health and well-being come under your care? CMxConnect can work for you. CMxConnect is more than just telehealth, it is the evolution towards instant, virtual care.

ACCESS IMMEDIATE MEDICAL ASSISTANCE FOR YOUR TEAM

Workplace accidents and illnesses can happen at any time, anywhere. As an employer it's your obligation to provide swift action and

appropriate safety management in response to any incident, regardless of the location or injury.

Research shows the most common workplace accidents are:

- Body stressing
- Falls, trips, and slips
- Being hit by moving objects
- Mental stress
- Hitting objects with body parts

Safe Work Australia, Claim statistics, 2019-20

ON-DEMAND INJURY MANAGEMENT AT YOUR TEAM'S FINGERTIPS

CMxConnect can be used as an app with any device, web applications across all major browsers (Firefox, Safari, Chrome, Microsoft Edge).

Hosted locally, our system offers a secure point to point service with no third-party intervention. Your team's data and video consultations are secure with CMxConnect. Easy to sign up, simple to use, CMxConnect has great support services to guide your team should it be needed.

ON-DEMAND SERVICE FOR BUSINESS

On-demand injury management is a subscription-based service

which offers businesses and organisations access to medical professionals in the moment it's required.

CMxCONNECT INJURY MANAGEMENT SERVICE PROVIDES:

On-demand, secure video, including:

- Quick online doctor consultation and advice about going to non-life-threatening urgent care
- Instant Category 4 and 5 triage for your injured employees at our medical centre, if required

CMxConnect is not to be used for a medical emergency. A medical emergency requires you to instead dial 000

WHY CMxCONNECT?

CMxConnect can be used as a mobile app

with any device, web applications across all major browsers (Firefox, Safari, Chrome, Microsoft Edge).

The Australian-made software is based on our own experience in our medical practices with patients, corporate clients, and Government policy.

Easy to sign up, simple to use, CMxConnect has **great support services to guide** your team should they need it.

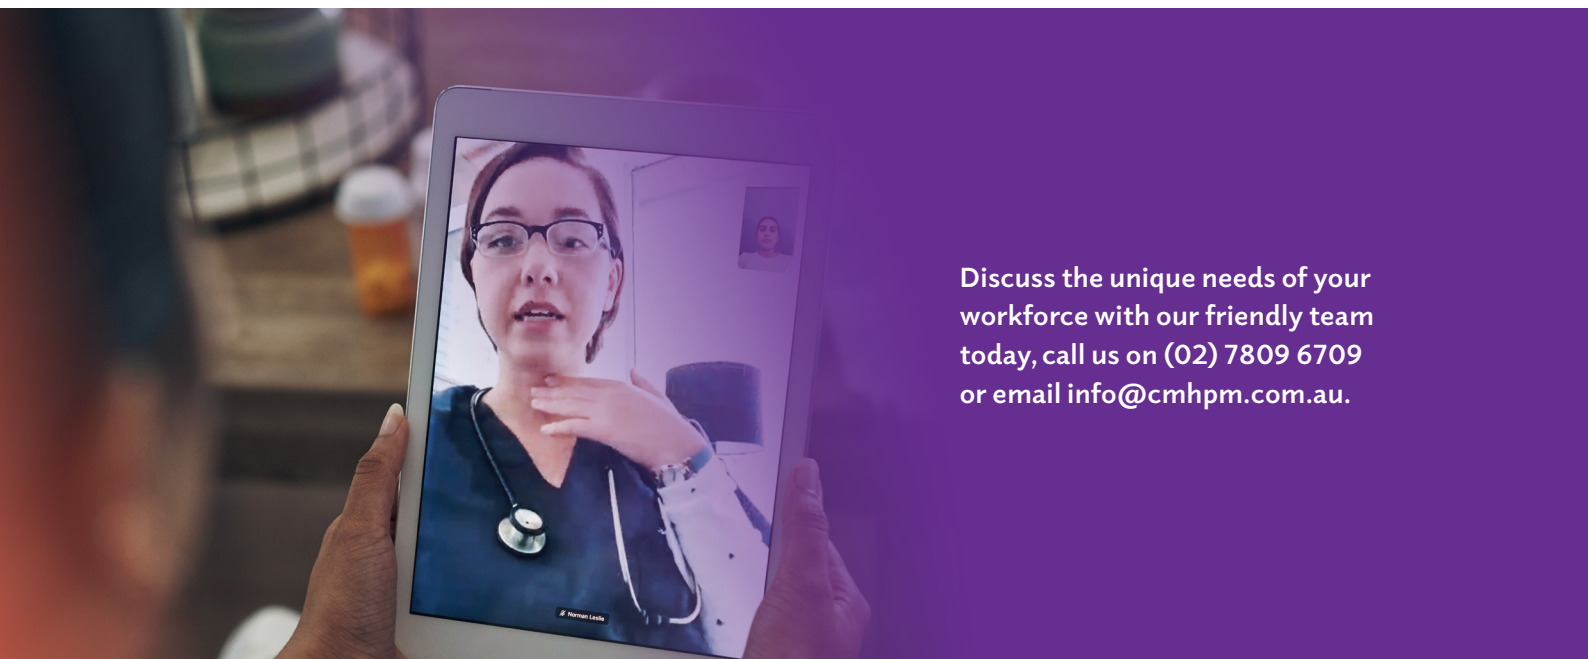

Ease of use is guaranteed as your team don't have to wait on web page for a call from a doctor. CMxConnect allows the doctor to call the patient instantly just like a phone call or Facetime™.

It securely connects your people of all ages with health professionals to **receive care when and where it is needed.**

Data shows an increase in the **efficiency and effectiveness** of face-to-face video consultations, as opposed to just telehealth phone calls.

Discuss the unique needs of your workforce with our friendly team today, call us on (02) 7809 6709 or email info@cmhpm.com.au.
